

**"Bradford Hayes' "The Jazz Life" is quite refreshing.
Good vibes from start to finish, including a
mesmerizing rendition of "The Nearness Of You".
Don't miss this one!"

**"Terrific straight ahead session. Fine playing throughout. Nice mix
of originals and standards. Plenty to enjoy here."

**"The Jazz Life" Review by RadioIndy
"In "The Jazz Life" mellow grooves and catchy themes peak your interest, then
Hayes delivers the storyline in the form of improvisation. His sound is warm and
clear and his techniques are polished to shine. Intuitive melodic phrasing is the
fundamental strength that defines his style. Put all of this together with a solid
accompaniment and you get jazz music with an endless supply of good vibes.
